</tr>
</thead>
<tbody>
<tr>

<td>No reduction.</td>
</tr>
<tr>
<td>Between 60 and 120 minutes</td>
<td>10 minutes.</td>
</tr>
<tr>
<td>More than 120 minutes</td>
<td>20 minutes.</td>
</tr>
</tbody>
</table>

(Note: the minimum break for the interval shall be 15 minutes)

b) In an uninterrupted match:

i) Each team shall bat for 50 (six ball) overs unless all out earlier.

ii) If a team fielding fails to bowl the required number of overs by the scheduled time for cessation of the first session, play shall continue until the required number of overs has been bowled. Unless otherwise determined by the Championship Committee, the innings of the team batting second shall be limited to the same number of overs bowled by it, at the scheduled time for completion of the first session. The over in progress at the scheduled cessation time shall count as a completed over. The interval shall not be extended and the second session shall commence at the scheduled time.

The Championship Manager/National Secretary may increase the number of overs to be bowled by the team bowling second if, after consulting with the Umpires, he is of the opinion that events beyond the control of the bowling team prevented that team from bowling the required number of overs by the scheduled time for cessation of the innings of the team batting first.

iii) If the team batting first is all out and the last wicket falls after the scheduled time for interval, the innings of the team batting second shall be limited to the same number of overs as the innings of the team batting first (the over in which the last wicket falls to count as an over.)

iv) If the team batting first is dismissed in less than 50 overs, the team batting second shall be entitled to bat for 50 overs except as provided in (iii) above.

v) If the team fielding second fails to bowl 50 overs or the number of overs as provided in (ii) (iii) or (iv) above by the scheduled cessation time, the hours of play shall be extended until the required number of overs has been bowled or a result achieved.

c) In a match where a start is delayed or where play is suspended:

i) The objective should always be to rearrange the number of overs so that both teams have the opportunity of batting for the same number of overs (minimum 30 overs per team).

ii) The calculation of the number of overs to be bowled shall be based on an average of 15 overs per hour, in the total time available for play, within the scheduled hours of play. The reduction in the number of overs to be bowled will be determined by the umpires.

(Note: Where the start of play is delayed or where play is suspended up to 30 minutes, no reduction in the number of overs (50) to be bowled will apply).

iii) If the number of overs of the team batting first is reduced, a fixed time will be specified for the completion of its innings as determined by the recalculation of the overs to be bowled.

iv) If the team fielding first fails to bowl the required number of overs by the scheduled time for cessation of the lunch break, play shall continue until the required number of overs has been bowled, and rule 1.4.3 shall apply.

v) If the team batting first is all out and the last wicket falls at or after the scheduled time for the interval, the innings of the team batting second shall be limited to the same number of overs as the innings of the team batting first (the over in which the last wicket falls to count as a completed over).

vi) If the team fielding second fails to bowl the reduced number of overs by the scheduled cessation time, the hours of play shall be extended until the required number of overs has been bowled or a result is achieved.

vii) If the innings of the team batting second is delayed or interrupted and it is not possible for the team to have the opportunity of batting for the same number of overs as the team batting first, the overs to be bowled shall be reduced at the rate of 15 overs per hour, for the time lost.

viii) The team batting second shall not bat for a greater number of overs than the first team unless the latter has been all out in less than the agreed number of overs.

ix) Fractions are to be ignored in all calculations re number of overs.

x) In circumstances where playing time is reduced any decision to adjust the timing or reduce the lunch break, shall be at the discretion of the umpires

xi) In the case of an abandoned final, joint winners will be declared.

d) If the team batting first is dismissed within 30 minutes of the scheduled lunch break then lunch shall be taken. If the team batting first is dismissed before this time then a 10 minute change of innings will take place followed by the second teams batting period up until the scheduled time for the lunch break. The team batting second will continue their innings following the lunch break.
1.4.4 Field Restrictions
i) Two semi circles shall be drawn by a continuous painted white line or painted white ‘dots’ at 4.5 metre intervals on the field of play. The semi circles shall be 27.43 metres (30 yards) from the centre stump at each end.

ii) At the instance of delivery there are to be no more than 5 players on the leg side.

c) In a delayed or interrupted match where the overs are reduced for both teams or for the team bowling second, no bowler may bowl more than one-fifth of the total overs allowed except where the total is not divisible by five, one additional over shall be allowed to the maximum number per bowler necessary to make up the balance e.g. in a 33 over match, three bowlers may bowl a maximum of seven overs and no other bowler more than six overs.

d) No medium pace or fast bowler (broadly defined by one or both umpires as those to whom the wicketkeeper would normally stand back) shall be permitted to bowl more than five overs in a spell.

1.5.2 Maximum rest period
