- The plate umpire shall be responsible for the keeping of the time.

Loss of Time

- In the event of an injury to a player lasting more than 5 minutes or a protest, the umpire will note the time taken. This time will be added to the finishing time for the game to ensure the full time allocation for the game.

1.1.5 Rule 11 Protests modified as follows:

All protests shall be heard immediately at the time of the protest by the Chief Umpire or his/her appointed deputy.

1.1.6 The official diamond shall have a pitching distance of 13.11m (43ft).

If the catcher is on base or is awarded a base when there are two out, the catcher may be replaced on the base by any player, from the team line up, other than any of the next **four** batters. If the catcher is not replaced, another player in full protective gear should be ready to warm up the pitcher at the beginning of the next innings.

1.2 Competition Rules

1.2.1 Player Participation, Age qualification

All players must be 17 years of age and under on 30 June of the year of competition, with the exception of the ACT who will receive age dispensation for their players. ACT players must be 18 years of age and under on 31 December of the year of competition. This age dispensation is to be reviewed in 2014.

1.2.2 Team Roster Size

Each state/territory team roster shall consist of a maximum of fifteen (15) players.

1.2.3 Double Headers

When constructing the draw, where possible, all teams will be given a similar number of double-header games and a similar number of split games.

1.2.4 Game Schedules

A minimum of 2¼ hours should be allowed between the starting times of games. Should a game extend beyond 1¾ hours a minimum of ½ an hour should be allowed between games if one of the teams is involved in a double-header.

1.2.5 Commencement Time for Games

- An introduction of teams may be held fifteen (15) minutes prior to the commencement of the game.
- Each team shall be entitled to a five (5) minute warm-up on the diamond prior to each game. The home team shall have last use of the diamond and remain on the diamond for the commencement of the game.
- The standard warm-up procedure is to be adhered to at all times including games where the starting time is deferred.

- If one game is still being played at the scheduled warm-up time of the next game then the later game may be transferred to an alternative diamond at the discretion of the National Secretary in consultation with the Championship Convenor and Chief Umpire.

1.2.6 Interruption to Games

- In the event of a protest the umpire will note the time taken for the protest to be heard and decided. This time will be added to the finishing time for the game to ensure the full time allocation for the game.
- In the event of an injury to a player extending beyond five (5) minutes, the umpire will note the time taken for the treatment of the injury. This time will be added to the finishing time for the game to ensure the full time allocation for the game.
- If the injury time extends beyond fifteen (15) minutes the Tournament Chief Umpire may declare the game to be an 'Interrupted Game'.
- For all interrupted games, the recommencement of play will be from the point of interruption unless determined otherwise by the Disputes Committee. The Disputes Committee will consist of the National Secretary, Tournament Chief Umpire and the Championship Convenor.
Note: If a regulation game of five (5) innings has been completed, the game will not be recommenced.
- In the event of a game being suspended, for more than five minutes, due to inclement weather the umpire will note the time lost. This time will be added to the finishing time for the game to ensure the full time allocation for the game.

1.2.7 Cancellation of Games

- If games are cancelled in the first or second round of a double round robin, the competition will be reduced to a single round robin, if all attempts to play postponed games have been exhausted. The last game played between any two teams will be the game which counts.
- If because of inclement weather, sufficient play as determined by the disputes committee, is not available to complete the final series games, final placings will be determined by:
 1. The result of the final, if a regulation game.
 2. If a result in the final is not possible then the results of the final series cross over games, if regulation games, will result in the highest ranked winning team being awarded 1st place. The other winning team will be awarded 2nd place and the highest ranked losing team will be awarded 3rd place. The other team will then be awarded 4th place and other places determined from pool rankings.
 3. If play is not possible for any of the final series games, rankings will be decided by the pool placings.

The disputes committee will consider all available time, prior to necessary departures for flights/transport, to ensure that regulation games are completed wherever possible.

- All round games postponed due to inclement weather will be rescheduled, where possible, in the same order as the published championship draw; however should there be other circumstances to be considered, the disputes committee will reschedule games after consideration of all factors.

The rescheduling of round games must not interfere with the scheduling of the final series games.

2.0 Competition Structure

2.1 Draw

- 2.1.1 For a five (5) team competition a double round robin will be played.
At the end of the double round robin teams are to be ranked 1 to 5. Teams ranked 1 and 2 will play off for direct entry to the final; the loser is to progress to the preliminary final.
Teams ranked 3, 4 and 5 will play a round robin with the winner to progress to the preliminary final.

If teams are equal on points in the round robin play-off, the top team will be determined by percentages calculated on games played in the round robin play-off.

2.1.2 For a 6 (six) team competition a double round robin will be played.

At the end of the round robin games, a final series will be played between the top four placed teams. Two games are to be played: 1 v 4, 2 v 3

However, should the hosting association have a suitable third diamond available **and** sufficient umpires to officiate, a 5 v 6 playoff will also be played in the first timeslot on the final day.

A final shall be played between the winners of the two semi-final games to determine 1st and 2nd places.

The 3rd place shall be decided by the highest placed losing teams at the completion of the round robin games.

2.1.3 For a seven (7) team competition a double round robin will be played.

At the end of the round robin games, a final series will be played between the top four placed teams: 1 v 4, 2 v 3

A final shall be played between the winners of the two games to determine 1st and 2nd places.

The 3rd place shall be decided as the losing team of the final series placed highest at the completion of the round robin games.

2.2 Points Allocation

2.2.1 Four (4) points shall be awarded for a win, two (2) points for a draw and no points for a loss.

2.3 Method of Determining a Winner

2.3.1 Teams will be ranked according to the total points gained at the end of round robin games (i.e. according to the win/draw/loss records).

2.3.2 Standings and Resolution of Ties

The procedure set out below will determine the position of teams for the Final Standings at the completion of the round robin matches, and resolve such positions in the event of a tie.

A tie exists when two or more teams have the same win/draw/loss record.

A tie shall be resolved by following, in order, the undermentioned procedures:

- With teams tied on total points from wins/draws/losses, rank them by their total points achieved in all round robin games between the tied teams – the team with the highest points is placed ahead of the others, the team with the second highest points is placed next, and so on.
- If still tied, rank them by their total runs against record in all round robin games between the tied teams – the team with the lowest runs against is placed ahead of the others, the team with the second lowest runs against is placed next, and so on.
- If still tied, rank them by their win/draw /loss record in the games played against each other in the first round matches of the round robin – the team with the most wins/draws/losses is placed ahead of the others, the team with the second most wins/draws/losses is placed next, and so on.
- If any teams are still tied, rank them by random selection – the first team selected is placed ahead of the others, the second team selected is placed next, and so on.

For a tied team, "runs against" is the total number of runs scored by the specified opponents of that team.

- If any teams are still tied, rank them by total defensive runs divided by total defensive innings in all games. (The smaller quotient will be ranked highest)
